
TO: MONTEREY COUNTY BOARD OF SUPERVISORS
RE: NORTH MONTEREY COUNTY WATER ISSUES
DATE: JANUARY 2002

WHEREAS North Monterey County is experiencing serious water quality and quantity problems; and

WHEREAS no solutions to those problems have yet been initiated; and

WHEREAS the existing interim ordinance prohibiting new and increased water uses is soon expiring; and

WHEREAS prematurely allowing new and increased water uses will exacerbate the existing water problems;

NOW, THEREFORE, we the undersigned citizens of Monterey County respectfully request that you take the necessary legal steps to extend the currently existing restrictions on new or expanded water uses until such time as programs are adopted and implemented to assure that additional water uses will not contribute to existing water quality or quantity problems. We respectfully request that all legal alternatives be pursued and initiated to avoid a gap between the expiration of the existing ordinance and the implementation of new enabling legislation.
